

**ACCESS IX**  
**ATMOSPHERIC CHEMISTRY COLLOQUIUM**  
**FOR EMERGING SENIOR SCIENTISTS**

**August 23-26, 2007**  
Yellowstone National Park, Wyoming

**PARTICIPANT'S APPLICATION**

(Must be received by May 1, 2007)

**ELIGIBILITY:** To be invited to speak at and participate in the Colloquium, an applicant must have received a doctorate from an accredited university after June 1, 2005, or, alternatively, must provide certification by the thesis advisor that, in all probability, the applicant will receive a degree before August 31, 2008. The applicant's thesis or postdoctoral research must deal with an important problem in atmospheric chemistry. For those holding degrees in alternate fields, yet having an interest in pursuing a scientific career in atmospheric chemistry, presentations must be tailored to demonstrate the relevance of their research to atmospheric chemistry. The basis of selection will principally be on the information supplied with this application. An attempt will be made to select individuals whose research interests reflect the scientific balance of the sponsoring agencies' programs in atmospheric chemistry. Send to:
